

CALL FOR PAPERS  
**MONAMI 2012 OConS Workshop**  
Workshop on Open Connectivity Services for the Future Internet  
26 September 2012  
Hamburg, Germany

One of the consequences of the Future Internet is the need for better, yet more flexible, connectivity services. These need to adapt to both the requirements of the current applications, policies from the corresponding actors and stakeholders and corresponding networking context. The currently available alternatives are rather rigid and thus do not fulfill the aforementioned challenges and needs. The connectivity embraces various levels and layers, and can refer to either the access part of the network as well as the end-to-end paths which shall be established and managed.

This problem is being analyzed in the context of the Scalable and Adaptive Internet Solutions (SAIL) project, in particular within the Open Connectivity Services workpackage, with a special emphasis on the relationship of connectivity with Information Centric Networking and Cloud Networking.

This workshop considers, among others, the following aspects:

- Architectures and frameworks to handle connectivity for the Future Internet
- Testbeds and prototyping related activities
- Security for connectivity services
- Evaluation of connectivity services to be used over Wireless Mesh Networks and DTNs
- Connectivity services for Information Centric Networking
- Connectivity services for Cloud Computing

### **Paper Submission**

We encourage submissions of high-quality technical papers reporting original research that has not been previously published, and is not currently submitted for consideration elsewhere. Full Papers should not exceed **10 pages** in the Springer Lecture Notes of ICST (LNICST) format. Full paper submission details are available at <http://mon-ami.org/>

All submitted papers will be peer-reviewed by at least three independent reviewers, including a TPC member to ensure high quality and relevance to the topics of the workshop. All accepted papers will be published in the Springer LNICST series and then be included in major article indexing services.

### **Important Dates**

Paper Submission Deadline: 15 July 2012 (firm deadline; no extensions will be given)  
Notification of Acceptance: 15 August 2012  
Camera Ready Deadline: 21 August 2012  
Workshop Date: 26 September 2012

### **Workshop Chairs**

Lucio Studer Ferreira, IST, Portugal  
Lucian Suci, Orange Labs, France

### **Steering Committee**

Ramon Aguero, University of Cantabria, Spain  
Pedro Aranda, Telefonica, Spain  
Luisa Caerio, IST, Portugal

Sofiane Hassayoun, Institut Telecom, France  
Olivier Mehani, NICTA, Australia  
Avi Miron, Technion, Israel  
Susana Pérez, Tecnalia, Spain  
Simone Ruffino, Telecom Italia, Italy  
Peter Schoo, Fraunhofer, Germany  
Michael Soellner, Alcatel-Lucent, Germany  
Andreas Timm-Giel, Hamburg University of Technology, Germany
